

17th December 2019

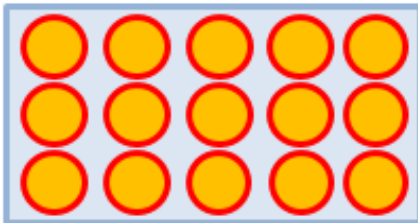

Dear parents,

Christmas is approaching fast and the children have been busy making cards, calendars and decorations. They have also been learning songs for the Carol Concert on Thursday 19th December at 9.00am in the school hall.

What is $15 \div 5$?

In maths we have been attempting division (sharing) with the children for the first time, so they have now covered all 4 operations (+ - x \div). Well done for all the hard work being done at home to help the children's confidence in maths.

Many of the children completed the final spelling check for 2019. Congratulations to those who have gained their spelling certificate already! We hope to give out lots more in the New Year.

Please help at home by –

- Watching weather forecasts on TV and talking about types of weather.
- Continuing to practise any spellings or words sent home.
- Practising counting backwards and forwards.

Thank you for your support, and Merry Christmas!

The Year 1/2 team

Reminder- Our Christmas Party is on Thursday afternoon. The children are invited to wear their own clothes, but please remember they still need to be suitable for playtimes!
